Dedicated Junior Architect & Full-Stack Developer with 6+ years of experience in the analysis, design,and development of Web-based Applications with a focus on pioneering solutions in React, Angular,Node.js, and MongoDB.

EMPLOYMENT HISTORY:

System Analyst –Trinesis Technologies, Pune   Feb'19 - Present

- Designed and documented scalable system architecture aligned with business goals, optimizing performance and efficiency.
- Established best practices for API integration, microservices, and frontend-backend communication.
- Conducted code and design reviews to ensure compliance with architectural standards.
- Collaborated with stakeholders to translate business requirements into technical solutions.
- Streamlined processes, reducing costs and enhancing operational efficiency through innovative designs.
- Developed APIs and business logic for web applications using Node.js, Express.js, REST Framework, Angular, and React.js.
- Proficient in cloud platforms (AWS), CI/CD pipelines (Jenkins), and project management tools (Jira).
- Experienced in creating dashboards with Apache Superset for data visualization and analysis.
- Adept at team collaboration and management, excelling in both independent and group settings.

PROJECT DETAILS:

SIZ - (Dubai Based Client)   Jan 2023 - till now

- Technologies: NodeJs, ExpressJS, ReactJS
- Domain: Ecommerce
- Database: MongoDB
- Project Description: Led the development of a dynamic analytics dashboard, seamlessly integration of third party services like shopify API. Engineered a user-friendly interface with customisable widgets, real-time analytics with RBAC implementations. Ensured data security, compliance, and scalability, empowering stakeholders with actionable insights for strategic decision-making. I crafted the application workflows to ensure consistency and adherence to architectural principles.

USDA - Pune (US Based Client)   June 2023 - till now

- Client: Brilliant Inc
- Technologies: ReactJS, JavaScript
- Domain: document processing and data extraction

- Project Description: BRN USDA stands as a robust application platform designed to harness the power of Artificial Intelligence and Machine Learning for the extraction and validation of data from documents. The primary objective of this platform is to streamline and automate the data extraction process, ensuring accuracy and reliability. Once the extracted information undergoes validation through AI and ML algorithms, it is subsequently digitised for efficient storage, retrieval, and analysis.

LNM - Pune (US Based Client)   June 2022 - July 2023
- Technologies: NodeJs, ExpressJS, ReactJS
- Domain: Marketing
- Database: MongoDB
- Project Description: Led the development of a dynamic analytics dashboard, seamlessly integrating Google Analytics and CallRail data. Engineered a user-friendly interface with customisable widgets, real-time analytics, and automated alerts. Ensured data security, compliance, and scalability, empowering stakeholders with actionable insights for strategic decision-making.

UC - Pune (US Based Client)   Feb 2019 - June 2022
- Technologies: ReactJS, NodeJS, React-native
- Domain: Community Platforms
- Database: PostgreSql
- Project Description: Collaborated with cross-functional teams to develop and maintain a web platform connecting students, universities, and companies, fostering career growth and networking opportunities. Built responsive and user-friendly components using React.js to enhance the platform's functionality and user experience.

EDUCATION DETAILS:

- **Bachelor of Engineering – Information Technology**   July 2014 – June 2018

University of Pune, India

Related Courses: Data Structures and algorithms, Database systems, Operating systems, Computer networks, Design patterns, advanced databases, Software Engineering, Software architecture.

TRAININGS:

- **Big Data (Hadoop) – Pune**   2019 – 2019
  - 2019 – Completed 6 months of training in Big-data, Hadoop and data analytics.

DECLARATION

I hereby declare that the above information provided is true to the best of my Knowledge and belief.
